

# About

## The Back In Line Difference

---

### Beyond the Back

We focus on more than just the spine, specializing in hard-to-treat injuries of the shoulders, wrists, knees, feet and more.

### Custom Treatment Plans

We know how to resolve injuries faster and longer by incorporating a mix of services like acupuncture and massage.

### A Toolbox of Techniques

We've mastered a wide range of chiropractic techniques that allow us to tailor treatment to your unique body.

## Our Team

We are a husband and wife team who have been serving patients since 2002. We are best known for our work with NFL teams and

individual players across the country, 14 of our athletes are in the Hall of fame. And because of our success with the NFL, other players from leagues such as the NBA, MLB and numerous Olympic athletes are our clients. However, we have refocused our practice on serving not only professional athletes, but also the everyday athletes, professionals and families in South Florida. For the doctors it is not just a job but a lifestyle. We take a very personalized interest in each one of our patients. When we are in the room with you, we are thinking of nothing else but you. You have our full undivided attention. We have a high integrity level here. We will not accept a case that we do not feel we can help, and we have helped many.

We also take great pride in our team; each of them is not only best in class in their area of expertise, but also goes above and beyond to work in tandem with each other to deliver extraordinary results through our integrated treatment plans. They deliver on a personalized experience geared for you and your individual case. With their great service and friendly smiles, it is no wonder that our clients feel like they are family.
