

Skin care by Lumiere 413

Here at Back in Line Chiropractic Center we are interested in your health inside and out. So we are pleased to introduce our newest division to Back in Line, **Lumiere 413**. We have been so busy keeping our clients feeling good on the inside, that it was time for the outside to get a little love too. Our aesthetics department is about having a skincare regimen that helps your skin stay in good condition. Facials promote healthier looking skin by optimizing hydration, barrier function, cell turnover, and minimizing irritation.

Some of our facials include:

- **H2Glow** Designed to revive, rehydrate and replenish lost moisture in the skin. Using products that contain peptides, amino acids and ultra hydrating enzymes.
- **Antiaging** Designed to reestablish amino acids for a healthier skin proven to reduce wrinkles and stimulate collagen production. We infuse ceramides lipids and peptides to provide a protective barrier for daily damage. Acne control This facial treatment profoundly purifies the skin and will usually include multiple rounds of extractions to unclog the pores. We focus on targeting acne bacteria and break up excess dirt and oil.
- **Serene skin** We designed this facial to be very soothing and calming for your skin. Using gentle exfoliation and products throughout the whole treatment. This facial is excellent for anyone with Rosacea, Eczema and skin sensitivity.
- **Custom**— Not everyone is made the same. We will perform an extensive evaluation for a personalized tailored solution to meet your skin care needs.

Beauty is in the eye of the Beholder or not...

We did not want to stop just at skin, so we added extra services to make you feel beautiful as well. Lashes can have a dramatic effect on your face and so can eyebrows.

- ***Lash Tint*** Do your eyelashes always fade into the background? Eyelash tint can darken the natural lash making it pop but still look natural.
- ***Lash Lift*** Perming of the natural lashes that curls and lifts for up to 6 weeks. What girl does not want a little lift.
- ***Lash Extensions*** Need a more dramatic look? Application of individual lashes one by one on your natural lash can achieve that.
- ***Brow & Lamination Trim and Shape*** while also perming your brows to achieve a clean and contoured look.
- ***Eyebrow Shape with Tint*** to darken hair and give you a come-hither look.
- ***Brows with Tint & Laminations*** Perm with brow shape and tint to darken hair.

Smooth clean and hair free: (Need we say more)

- **Eyebrow Waxing**
- **Lip Waxing**
- **Underarm Waxing**
- **Leg Waxing**

More is always better! We have numerous add ons:

- **Microcurrents**
- **High frequency**
- **LED Light Therapy**
- **Scalp Massage...**
