

Patient Resources

What to Expect

At your first appointment we will do a complete chiropractic examination including neurological, orthopedic, postural and sensory assessments. We will also take X-rays to identify misalignments, degeneration and dislocations. You should expect that we will always show you what we find, explain it in terms you can understand and set your expectations on a treatment plan. Your treatment will begin on your next appointment.

If you are coming to us with a serious issue, your treatment plan will likely include a combination of our services over several weeks. Most patients need to come into the office two times per week at the beginning of the treatment plan, but this will taper as you progress. Patients who are looking for maintenance or have completed a treatment plan typically come into the office once or twice a month.

- Visits are by appointment only, except in the case of emergencies.
- No-shows or cancellations with less than 24 hours notice will incur a \$40 fee.

New Patient Forms

Please bring completed forms to your first appointment.

Payment Options

Your treatment may be covered by insurance if we are a participating provider in your health plan. However, in many cases chiropractic care is not covered by insurance. We understand that the cost of treatment can be a financial burden, so we offer the following assistance options. Patients who are uninsured or underinsured with limited benefits for chiropractic care may join ChiroHealthUSA for network discounts. Sign up in our office for \$49.00 per year to cover you and your dependents. Your health is top priority! We do understand that sometimes an expense might be too big. With SmartMoney, you can apply to get finance for your treatments. To find out if you qualify, follow the link below:

<https://app.supermoney.com/loan/medical/back-in-line-chiropractic/> We offer patient financing through [CareCredit](#), a leading company for health care financing that supports automatic recurring card payments. You can learn more and sign up in our office. For patients with treatment plans that span several months, costs are typically higher at the beginning than at the end. We offer an interest free auto debit option that distributes the total cost of treatment equally across each month with a single monthly payment. Patients who meet State and or Federal poverty guidelines or other special circumstances may be offered a discount for a period of time. The amount and duration of discounts are at our discretion and verification will be required.
