

Regenerative Cellular Therapy

Are you tired of being slowed down and even stopped by pain? Are you having recurring knee, shoulder, back pain, neuropathy, arthritic joint pain, and/or other types of pain being caused by a chronic illness?

If you've answered yes to any of these questions, then we have great news for you! Here at Back in Line, we don't offer you a cover up for the pain. Instead, we offer you a real solution by getting to the root of your problem to bring healing to your body with an advanced-technological method called Regenerative Medicine.

Regenerative medicine is helping millions world-wide to live a healthier, happier life of freedom by promoting the repair response all the while bringing anti-inflammatory effects to the areas. What was once degenerating now will have the ability to REGENERATE. (to make new again!)

If we could give you a gift that would help improve your quality of life and give you the freedom you once enjoyed, would you take it? Our guess is that you will say YES!

Our purpose and goal in life to help as many people as possible. Therefore, we would like to gift you with a complimentary consultation where we can better figure out what is going on with your body and if you qualify for Regenerative Medicine. This is a personal invitation to you, to meet one-on-one with our caring doctor and staff to see if we can help you.

We look forward to possibly starting a new journey with you by helping change your life into the life you have been waiting to live! To make an appointment or for more inquiries, give us a call. Get a head start by downloading our [new patient intake forms!](#)
