Chris Chambers

NFL Pro Bowl Wide Receiver

“I’ve been coming to Back in Line for two years. I have not had any injuries or setbacks since coming here. I have not missed a workout, practice, or game. I feel a lot stronger and faster, and I have better balance.

I used to get bad tendonitis in my knees for a while, but not since seeing Dr. Peter. I like the people that work here: a dedicated staff, and a office with a real family environment.”

Betty Garner

Plantation, FL

“For almost thirty years I have been in great pain, despite the almost constant use of various pain killers. I woke up in pain and went to sleep in pain. I saw one doctor after another and was unsuccessful at getting a relevant diagnosis. Some doctors even had the gall to suggest that I was faking it in

order to obtain the medication for scurrilous purposes. Imagine if you will never feeling good and missing out on many of life's pleasures simply because every bone in your body seemed to be on fire. One day I went into Costco for no reason in particular, and met Dr. Pete. He, Lani and Doug were promoting their business and convinced my boyfriend and I to give chiropractic a try. Out of curiosity, and perhaps desperation, I made an appointment, and discovered that all my joints and vertebrae were very badly "subluxated." Dr. Pete worked on me with dedication and a Christian heart, and within a relatively short time, I was able to go off the pain killers completely. (Imagine how happy my internal organs are!) At first I felt infuriated that no doctor ever suggested this to me before, but the past is the past, and my future looks bright. I have very little to complain about these days, and I thank God for bringing Drs. Pete and Barb into my life."
